

15th German Lock Picking Championship Chemnitz, 1st & 2nd October 2011, 10am-6pm

*The fine art
of lockpicking,
the fun sport with a touch to it.*

Chemnitzer Athleten Club
Haus des Gastes - Reichenbrand
Zwickauer Straße 485, 09117 Chemnitz

Admission free!

Since 1997 the „Sportsfreunde der Sperrtechnik - Deutschland e.V.“ host their annual German Lock Picking Championship under increasingly international participation. Visitors get a rare opportunity to watch experts over their shoulders opening high quality security locks.

In the showcase domain **Manual Opening** athletes open commercially available standard locks only by their lockpicking tools. In **Padlock Opening** you unlock fully functioning padlocks. However in the field of **Freestyle** all tools are allowed as long as the lock doesn't get damaged. In **Blitz-Opening** athletes compete in one big circle and have to open their neighbours' lock in less than a minute.

During the competition visitors may take the chance to test their own skills on displayed locks and bolster up their expertise. There is also a small store on site, giving you the opportunity to purchase spare parts and beginners' equipment.

A sample fair alongside our championship provided by regional manufacturers offers a glimpse of the latest in lock and security technology. A special show of historical locks and opening instruments supplements the venue.
